## Demo Reel Shot List Breakdown

### 00:10-00:17 Balloon Holiday Video Card 2014

I acted as art director, establishing the look and creating the story, including drawing storyboards. I worked on some of the 3D modeling of the environment and animation of the balloon but mostly did the lighting, all camera animation, music selection, filming the live-action and compositing.

### 00:17-00:23 I-5 HOV & Avenida Pico Improvements - Orange County, CA

This was a large group project. I did all of the terrain modeling and texturing, and the modeling of the overpass. I was responsible for the camera animation and animation of the "hero" cars. I also did all of the lighting and compositing.

### 00:23-00:28 Transport Report

This was a parody of the Colbert Report for an internal executive summit. I did everything except the eagle and filming. I did the background modeling in Cinema 4D and the rest of the chroma keying, effects, and compositing was done in After Effects.

### 00:28-00:33 Mobility 21 California Conference Intro

I came up with the look and feel of this animation and did everything from storyboarding to final animation.

### 00:33-00:45 Ottawa Light Rail Proposal

I worked on the logo and map animations in After Effects and used 3DS Max for the lighting, character animation, camera animation, and the 3D modeling of the stations.

### 00:45-00:49 I-96/US-23, Michigan

I did everything in this animation except for the overpasses and some of the initial modeling.

### 00:49-00:54 I-35E 35Express, Texas

I did the intro in Cinema 4D, and all of the animation that is shown here.

### 00:54-00:57 Core Value Coin

I did everything for this animation except for the design of the coin itself.

### 00:57-01:00 Snowflake Holiday Video Card 2012

I did the story and all the 2D animation - and even cut out some of the snowflakes by hand.

### 01:00-01:04 Snowman Holiday Video Card 2013

This was all my creation.

### 01:04-01:08 Kingdom of Saudi Arabia Public Villa Housing

I did the modeling of the screens, the viney flowers, and the courtyard - and all of the animation.

### 01:08-01:15 Balloon Holiday Video Card 2014 Ending

Same as the first entry. I modeled the book/landscape and the earth and did all of the lighting, texturing, and animation.
